
The Age of Account Abstraction: Opportunities and Challenges

Daniel Yanev, DevCon SEA

Chain abstraction UX goals

Users are oblivious to what chain they are transacting on - “the credit card experience”

Users get the best execution on what they want to happen

The status quo

dApps are deployed on multiple chains (in a messy way)

L2s/chains can market to users directly

Ecosystems can be quite separate - ideologically or ux

Removing barriers lets predators in

vs

‘Winner takes all’ liquidity mechanics

Pool has best liquidity

Fees attract LPs

Orders are routed there

Duplication is pointless

Uniqueness is rewarded

Apps and chains converge

**Do something that matters and you
will be rewarded more than ever.**

Q&A

Daniel Yanev
